

Welcome to Bay Ridge Christian Academy's website! We're happy that you've chosen to explore the site to learn something about BRCA's history and vision for the future. Our founding Pastor's vision was to provide an affordable unique educational program where academic excellence is assured through, dedicated, exceptional educators that have a passion for teaching. We believe that every student was created with a purpose, and our responsibility is to ensure an environment that is both challenging and Christ-centered. We teach God's word, and Character development, paired with a rigorous approach to academic instruction throughout the Elementary and Middle School.

Since 1984, Bay Ridge Christian Academy has been providing students in grades K3 - 8th with an excellent education that has enlightened and equipped students to become effective leaders in the church and their communities. Through God's provision we have been able to ensure that all those who are committed to Christian Education, are afforded that opportunity.

As we look into the future we stand upon God's word and believe that he will provide the necessary funds to build a state of the art school building, where we will be able to provide Christian Education for children in early head-start through 12th grade. Our vision is to minister to the whole child by providing not only a stellar Christian Education, but also extra-curricula activities that will enhance the educational process.
